TRANSPORT PARTS CENTER

NEW @ NEW LIFE:

HEAVY DUTY TRUCK WASH

For Industrial Use Only. Corrosive Liquid N.O.S. (Containing Sodium Hydroxide) 8, UN-1760, PG-II, Corrosive.

Part No. 1010618

1 Gallon Container

4 gallons / case.

A highly concentrated liquid product for use in removing old road film, diesel smoke deposits and oils/greases from pre-painted and FRP type trailers. Very effective in hard water areas. Quickly penetrates, emulsifies, and suspends contaminants. Can be used to clean and brighten aluminum and stainless steel trailers at proper dilutions. Will not harm glass or rubber but can tarnish polished or anodized aluminum.

May be applied cold., do not allow to dry on surface.

CLEANER AND BRIGHTENER

For Industrial Use Only.

D.O.T. Corrosive Liquid N.O.S.

(Containing Hydrofluoric and Sulfuric Acid)

8, UN-1760, PG-II, Corrosive.

Part No. 1010612

1 Gallon Container

4 gallons / case.

A highly concentrated blend of biodegradable surfactants, inorganic mineral acids and water softening agents for use in cleaning and brightening stainless steel and aluminum trailers. Fast acting and free rinsing.

Will damage glass and can tarnish polished or anodized aluminum.

Do not allow to dry on surface.

Proper dilutions listed on container.
